

## High Performance Brake Kits

### SPECIFICATION SHEET

<b>KIT NUMBER</b>	1B1.8013A
<b>APPLICATION</b>	1991-1999 Mitsubishi 3000GT VR4
<b>CALIPER</b>	Two-piece caliper body machined from high quality aluminum castings. Four differentially sized pistons (40mm & 44mm) for minimal pad taper. Fitted with aluminum pistons with dust seals, and anti-rattle clips. No “off brake” disc drag.
<b>ROTOR</b>	355mm by 32mm cross-drilled motorsport disc. Anti-corrosive Cadmium plating. Mounts “floating” style to a vehicle-specific billet aluminum bell.
<b>PADS</b>	High Performance pad material suited for high-end street uses as well as limited track application.
<b>BRAKE LINES</b>	Goodridge brand DOT and TUV approved stainless steel braided brake lines.
<b>HARDWARE</b>	Caliper mounting bracket, and all necessary hardware (aircraft quality) complete this kit.
<b>DIMENSIONS</b>	A= 46.8mm B= 199.0mm C= 32.0mm D= 7.5mm  Allow an additional 3mm of clearance between the caliper and wheel both in the radial and axial directions.

All kits are completely ABS compatible and retain the stock master cylinder.
